## PERSONAL PROJECTS

---

**Project Title:** *Online Blood Donation Management System* [[VIEW LIVE](#)]

This is a blood donation management system MERN application where users can register to see list of available donors. Also, they can filter list according to their blood group.

**Project Title:** *Blogging Website using Strapi* [[VIEW LIVE](#)]

Built a next.js application for posting blogs. Admin can use Strapi dashboard to post blogs.

**Project Title:** *Task Manager Tool* [[VIEW LIVE](#)]

Built a task manager application as a fun learning project where we can create our own tasks, edit them, and delete them. Used MongoDB database to save data permanently.
